Product Producer

Zebra Technologies Corporation
333 Corporate Woods Parkway
Vernon Hills, IL 60061 U.S.A.

Product Description

Models: P420C, P420i Plastic Card Printer

Hazardous Substances and Preparations

These products may contain the following substances:
- Hexavalent Chromium may be present in trace amounts in the metal fasteners, brackets and other metal structural components.
- Lead may be present in the PCBAs used in these products.

Batteries

No configurations of these products contain a battery.

Packaging

The packaging materials used for these products do not contain any of the banned materials listed in the EU packaging directive.

The printed user documentation included with these products is produced on paper with 50% or more recycled content that has not been bleached with chlorine. If a Compact Disc (CD) is supplied, it is made from a recyclable polycarbonate material.

Information on the assessment of the packaging scheme for this or other Zebra products can be found at: http://www.zebra.com/environment.

Recycling Information

Zebra Technologies offers product recycling programs in certain geographic areas. To determine if a program is available for these products in your area, please refer to our web site http://www.zebra.com/environment.

These products are designed with the following features to enhance recycling:
- Glues and adhesives have been eliminated from product construction where feasible.
- Use of common fasteners and/or snap-in features
- Plastic parts weighing more than 25g are marked according to ISO 11469 standards except where impractical. Exceptions are noted in the following drawing.

P420C, P420i
